A new framework to address national – regional coordination issues for smart specialization strategies

25 May 2026 | 10h-12h

Online

Objectives for the session

- Presentation of the Proposed Framework
- Discussion of the Framework and possible extensions to it, notably:
 - Qualitative extension based on information regarding S3 national-regional coordination in Portugal and in other European countries.
- Discussion of the Importance of the Study Visits abroad as an instrument to inform this framework to address national – regional coordination issues for smart specialization strategies
- Reflection on how to strengthen the proposed framework and its possible usefulness supporting the preparation of the next MFF

Agenda

10 min. – Welcome

50 min. – Dominique Foray

1h – Joint Discussion and reflection
